

EPBC 2018/8243 Peppertree Quarry
Modification 5
21st March 2023 – 20th March 2024

843 Marulan South Road, Marulan South,
NSW, 2579

Declaration of Accuracy

In making this declaration, I am aware that sections 490 and 491 of the Environment Protection and Biodiversity Conservation Act 1999 (Cth) (EPBC Act) make it an offence in certain circumstances to knowingly provide false or misleading information or documents. The offence is punishable on conviction by imprisonment or a fine, or both. I declare that all the information and documentation supporting this compliance report is true and correct in every particular. I am authorised to bind the approval holder to this declaration and that I have no knowledge of that authorisation being revoked at the time of making this declaration.

3.0 Introduction

This annual compliance report Year 2 (21 March 2023 to 20 March 2024) has been prepared to satisfy the requirements of EPBC 2018/8243 (the Approval) granted 31 March 2020 for the Peppertree Quarry Modification 5, Marulan South, NSW (the Project).

In accordance with the approval granted on 31 March 2020 under the *Environment Protection and Biodiversity Conservation Act 1999 (EPBC Act)*, this annual compliance report has been prepared to satisfy Condition 9 of the Approval, which states:

“The approval holder must prepare a compliance report for each 12 month period following the date of commencement of the action, or otherwise in accordance with an annual date that has been agreed to in writing by the Minister. The approval holder must:

- a. publish each compliance report on the website within 60 business days following the relevant 12 month period;*
- b. notify the Department by email that a compliance report has been published on the website within five business days of the date of publication;*
- c. keep all compliance reports publicly available on the website until this approval expires;*
- d. exclude or redact sensitive ecological data from compliance reports published on the website; and*
- e. where any sensitive ecological data has been excluded from the version published, submit the full compliance report to the Department within 5 business days of publication.*

Note: Compliance reports may be published on the Department’s website. The first compliance report may report a period less than 12 months so that it and subsequent compliance reports align with the similar requirement under state/territory approval.”

3.1 Reporting Period

This annual compliance report details the status and compliance of the Project for the 12-month reporting period spanning 21 March 2023 through to 20 March 2024.

The annual compliance report must be published on Boral’s public website and notification provided to the Department of the Environment and Energy (now the Department of Agriculture, Water and the Environment, DAWE) within 60 business days of the 12 month anniversary of the commencement of the action (21 March 2022).

3.2 EPBC Approval

Boral Resources Pty Ltd, as the Proponent of the Project (EPBC Act Referral 2018/8243) was issued with an approval by the Department of the Environment and Energy (now DAWE) on the 31 March 2020, subject to conditions. This approval was subsequently varied on 4 November 2021, to allow credit retirement by 30 June 2022.

The approved action was to allow for a new 15 million tonne overburden emplacement area and associated storage dam, relocation of a powerline and construction of an intersection on Marulan South road [EPBC Act referral 2018/8243].

Vegetation validation was undertaken as per the BAM (Biodiversity Assessment Methodology) which confirmed that the area identified as ‘proposed’ in Appendix A of EPBC 2018/8243 contained the following Plant Community Types (figure 3):

1. PCT778: Coast Grey Box – stringybark dry woodland on slopes of the Shoalhaven Gorges - Southern Sydney Basin
2. PCT1334: Yellow Box - Blakely's Red Gum grassy woodland on the tablelands, South Eastern Highlands.

These Plant Community Types concluded that two ‘species credit fauna’, the Koala and Large-eared Pied Bat, have habitat within the study area, requiring like-for-like species credits.

Key details related to the EPBC 2018/8243 approval are provided in Table 2 below.

Table 2 – Approval Details

Commonwealth Reference	EPBC 2018/8243
Approval Holder	Boral Resources Pty Ltd
ABN	000 756 507
Project Name on Approval	Peppertree Quarry Modification 5, Marulan South, NSW (2018/8243)
Approved Action	A new 15 million tonne overburden emplacement area and associated storage dam, relocation of a powerline and construction of an intersection on Marulan South road [EPBC Act referral 2018/8243]
Controlling Provision(s)	Listed threatened species and communities (sections 18 & 18A)
Approval Date	31 March 2020
Variation to Conditions of Approval Date	4 November 2021
Expiry Date of The Approval	31 December 2038
Date of Commencement of The Action	21 March 2022
Address	843, Marulan South Road, Marulan South, NSW, 2579
Government Area	Goulburn Mulwaree LGA

3.3 Project Description

Peppertree Quarry (the Quarry) is owned and operated by Boral Resources Pty Ltd (Boral). The hard rock quarry is located south-east of Marulan in the NSW Southern Tablelands, approximately 175 km south-west of Sydney (refer to Figure 1).

The Quarry was first granted planning approval in February 2007 under Part 3A of the Environmental Planning and Assessment Act 1979 following the preparation and display of an Environmental Impact Assessment. The project has since been the subject of seven separate modification applications which were approved in March 2009, November 2011, October 2012, August 2016, October 2019, April 2020 and most recently in September 2021.

The Quarry has an identified resource area of approximately 250 million tonnes, which dependent upon extraction rates, would allow quarrying for 70 years or more over an area of approximately 104 hectares (ha), within a 650-ha parcel of land (refer to Figure 2).

All quarry products and materials (granodiorite aggregate products and manufactured sand) are transported by rail and a capped quantity of trucks to a number of Boral rail terminals for distribution by trucks into the Sydney metropolitan area.

Boral Resources Pty Ltd (Boral), a wholly owned subsidiary of Boral Limited, began construction of a new overburden emplacement and associated storage dam, relocation of a powerline and construction of an intersection in order to store quarried overburden and weathered rock material (the Project) commencing 21 March 2022. The overburden was removed from within Boral's existing Peppertree Quarry approved quarry footprint to enable the extraction of higher quality hard rock beneath.

The new emplacement area is located to the south west of the approved quarry pit and south of Marulan South Road.

3.4 Overview of Key Activities and Achievements

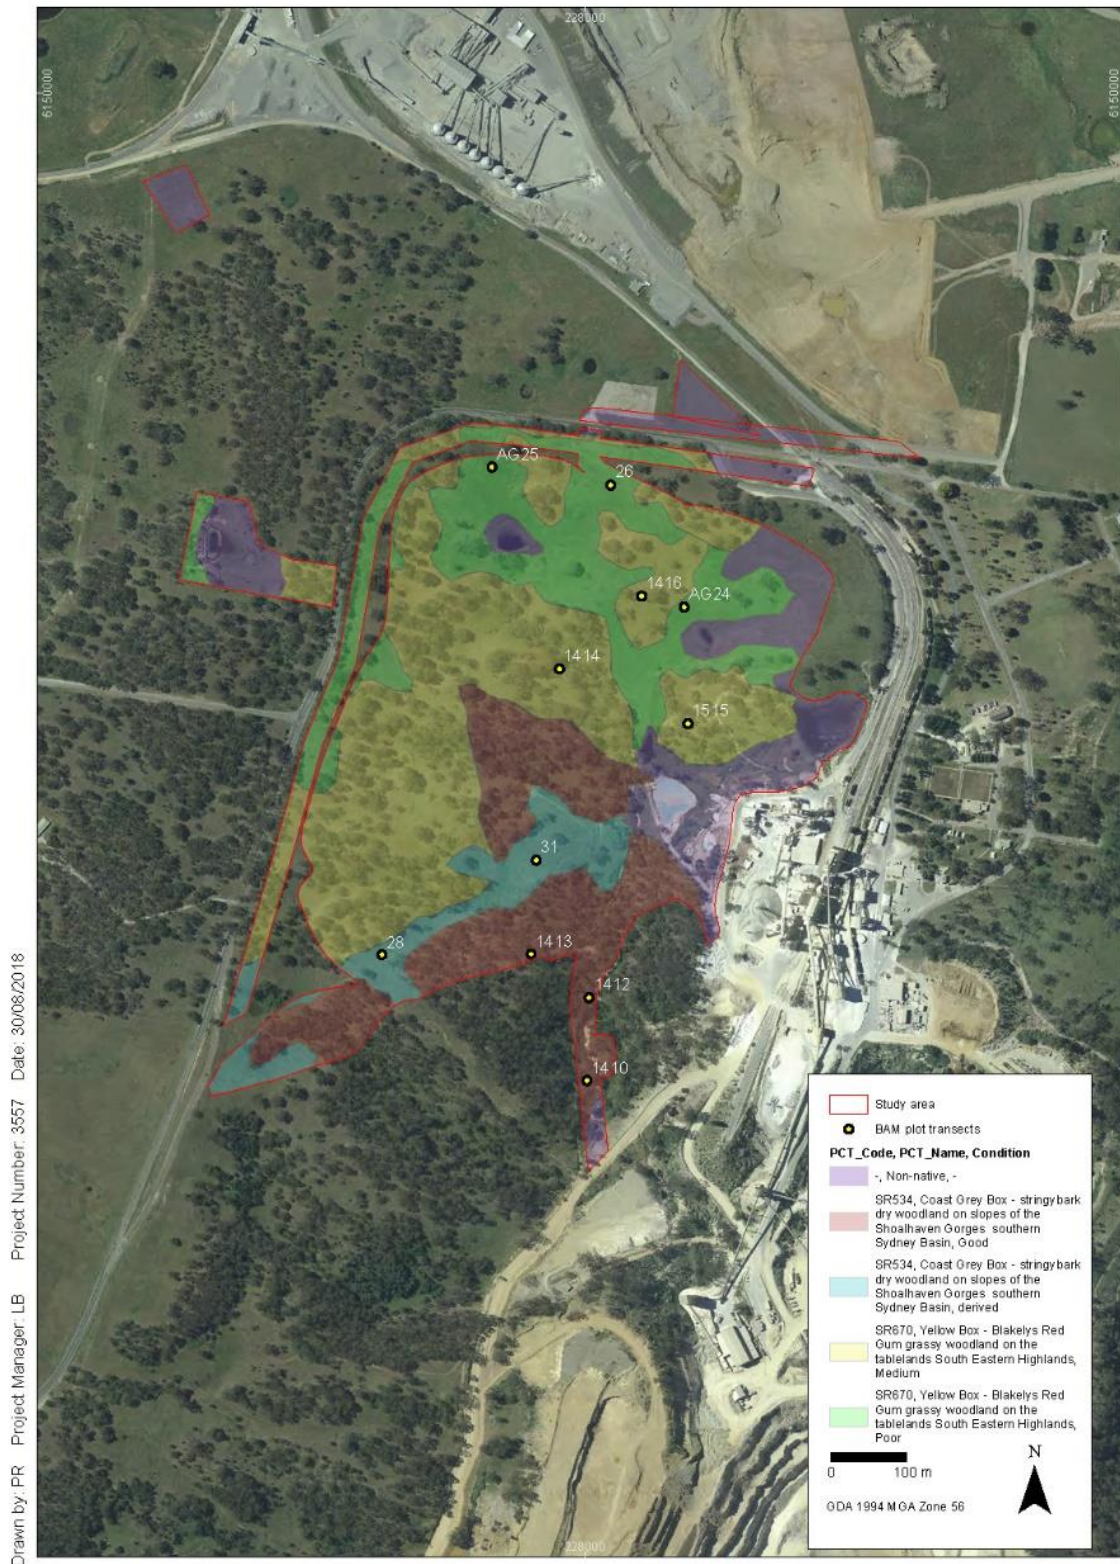

During Year 1 of compliance reporting, the following development and environmental management activities occurred:

- Clearing of vegetation within the area identified as ‘proposed’ at Appendix A of EPBC 2018/8243 in accordance with the best practice methodology set out in the Biodiversity Guidelines: Protecting and managing biodiversity on RTA projects. Only vegetation North of the “powerline to be relocated” has been removed.
- Management of an area of Aboriginal archaeological sensitivity and five potential culturally scarred trees
- Construction of a new access road/intersection and surface water infrastructure (i.e. surface drains, sedimentation dams) to manage runoff.
- Haulage and unloading of excavated overburden and weathered rock material from the approved quarry footprint at the project area.
- Offsetting vegetation removal through the retirement of the following credits from 2 stewardship sites, one located in the Bungonia subregion owned by Boral and the other being privately owned (location withheld).
 - a. 428 **like-for-like ecosystem credits** for **Box Gum Grassy Woodland**;
 - b. 487 **like-for-like species credits** for the **Koala**;
 - c. 731 **like-for-like species credits** for the **Large-eared Pied Bat**; and
 - d. 473 **like-for-like ecosystem credits** for the **Regent Honeyeater**, which are comprised of 134 **like-for-like ecosystem credits** for **PCT 778** and 339 **like-for-like ecosystem credits** for **PCT 1334**.
- Quarterly weed management activities.
- Installation of 33 nest boxes as per the best practice methodology set out in the Biodiversity Guidelines: Protecting and managing biodiversity on RTA projects (figure 5). The nest boxes were monitored for use in November 2022.

During Year 2, the following development and environmental management activities occurred:

- Liaison with the Aboriginal Heritage Management Committee (AHMC) to design and engineer a final location for the five scar trees to be displayed.
- Haulage and unloading and compaction, of excavated overburden and weathered rock material from the approved quarry footprint at the project area.
- Construction of a new surface water infrastructure (i.e surface drain and sedimentation dam) to manage runoff.
- Quarterly weed management activities.
- Annual monitoring of the 33 nest boxes in November 2023.

4.0 EPBC 2018/8243 Approval conditions compliance table

Conditions attached to approval	Compliance Status	
Part A – Conditions specific to the action		
<p>1. The approval holder must not clear outside of the area identified as ‘proposed’ at Appendix A.</p>	Compliant	<p>Year 2- no further clearing and disturbance was undertaken.</p> <p>Year 1- Vegetation was cleared within area identified as ‘proposed’ at Appendix A. Clearing boundary was pegged consistent with area identified as ‘proposed’ at Appendix A, no clearing was undertaken outside of this area.</p>
<p>2. The approval holder must not clear more than:</p> <p>a. 27.68 hectares (ha) of Box Gum Grassy Woodland;</p> <p>b. 27.1 ha of Koala habitat;</p> <p>c. 27.1 ha of Large-eared Pied Bat habitat; and</p> <p>d. 27.1 ha of Regent Honeyeater habitat</p> <p>within the area identified as ‘proposed’ at <u>Appendix A</u>.</p>	Compliant	<p>Year 2- no further clearing was undertaken.</p> <p>Year 1- Action completed in year 1. Vegetation was cleared within area identified as ‘proposed’ at Appendix A. Clearing boundary was pegged consistent with area identified as ‘proposed’ at Appendix A, no clearing was undertaken outside of this area.</p>
<p>3. To compensate for impacts to protected matters, the approval holder must, by 30 June 2022 retire:</p> <p>a. 428 like-for-like ecosystem credits for Box Gum Grassy Woodland;</p> <p>b. 487 like-for-like species credits for the Koala;</p> <p>c. 731 like-for-like species credits for the Large-eared Pied Bat; and</p> <p>d. 473 like-for-like ecosystem credits for the Regent Honeyeater, which are comprised of 134 like-for-like ecosystem credits for PCT 778 and 339 like-for-like ecosystem credits for PCT 1334.</p> <p>The approval holder may not pay into the Biodiversity Conservation Fund unless the Minister approves this in writing.</p>	Compliant	<p>Year 2- no further credits are required to be retired.</p> <p>Year 1 Completed- Credits have been retired.</p> <p>There was a delay in credit retirement due to changes occurring in the Total Fund Deposit (TFD) regime and agency structure responsible to assessing and determining Stewardship applications combined with changes in Boral Director group.</p> <p>DAWE were kept abreast of the process.</p> <p>Refer to Appendix 1</p>
<p>4. Within 20 business days of completing the requirements of Condition 3, the approval holder must provide the Department with evidence of when and how the like-for-like ecosystem credits and like-for-like species credits were retired.</p>	Compliant	<p>Year 2- No further action required.</p> <p>Year 1 – Completed Refer to Appendix 2</p>
<p>5. To avoid injury and mortality to Koalas during clearance, the approval holder must:</p> <p>a. ensure clearance is undertaken in accordance with the best practice methodology set out in the Biodiversity Guidelines: Protecting and managing biodiversity on RTA projects. An alternative, equivalent guideline may be used only if approved by the Department in writing.</p> <p>b. in the case that a Koala is observed within the area identified as ‘Proposed’ at Appendix A, cease the action immediately. The action must not recommence until all Koalas are removed and an ecologist confirms that no Koalas occur within the area identified as ‘Proposed’ at <u>Attachment A</u>.</p> <p>c. in the case that a Koala is killed or injured, notify the Department of the</p>	Compliant	<p>Year 2 – No further clearance and disturbance was undertaken.</p> <p>Year 1- Completed. Clearance was undertaken in accordance with Biodiversity Guidelines: Protecting and managing biodiversity on RTA projects.</p> <p>No Koalas were observed during the pre-clearance survey, or during the clearing.</p>

<p>incident in accordance with Conditions 9 and 10, and undertake any corrective action necessary to prevent further Koala death or injury.</p>		
<p>Part B – Standard administrative conditions</p>		
<p>Notification of date of commencement of the action</p> <p>6. The approval holder must notify the Department in writing of the date of commencement of the action within 10 business days after the date of commencement of the action.</p>	<p>Compliant</p>	<p>Year 2- No further action required. Year 1- Completed. Refer to Appendix 3</p>
<p>Compliance records</p> <p>7. The approval holder must maintain accurate and complete compliance records.</p>	<p>Compliant</p>	<p>Year 2 - Boral has maintained records in accordance with this condition. Year 1 - Boral has maintained records in accordance with this condition.</p>
<p>8. If the Department makes a request in writing, the approval holder must provide electronic copies of compliance records to the Department within the timeframe specified in the request.</p> <p>Note: Compliance records may be subject to audit by the Department or an independent auditor in accordance with section 458 of the EPBC Act, and/or used to verify compliance with the conditions. Summaries of the result of an audit may be published on the Department’s website or through the general media.</p>	<p>Not Applicable</p>	<p>Year 2- This condition was not triggered during the reporting period. Year 1 - This condition was not triggered during the reporting period.</p>
<p>Annual compliance reporting</p> <p>9. The approval holder must prepare a compliance report for each 12 month period following the date of commencement of the action, or otherwise in accordance with an annual date that has been agreed to in writing by the Minister. The approval holder must:</p> <ul style="list-style-type: none"> a. publish each compliance report on the website within 60 business days following the relevant 12 month period; b. notify the Department by email that a compliance report has been published on the website and provide the weblink for the compliance report within 5 business days of the date of publication; c. keep all compliance reports publicly available on the website until this approval expires; d. exclude or redact sensitive ecological data from compliance reports published on the website; and e. where any sensitive ecological data has been excluded from the version published, submit the full compliance report to the Department within 5 business days of publication. <p>Note: Compliance reports may be published on the Department’s website.</p>	<p>Compliant</p>	<p>Year 2- The Annual Compliance Report for Year 2 of the approval will be published within 60 business days with the date of publishing updated in the next annual report.</p> <p>Year 1 - The annual compliance report was posted to the website 19th May 2023 with notification given to the department 19th May 2023. See appendix 4.</p> <p>The publication of the compliance report can be found under “Public Reporting” of the below website link: https://www.boral.com.au/locations/peppertree-quarry</p>
<p>Reporting non-compliance</p> <p>10. The approval holder must notify the Department in writing of any: incident or noncompliance with the conditions. The notification must be given as soon as practicable, and no later than 2 business days after becoming aware of the incident or noncompliance. The notification must specify:</p> <ul style="list-style-type: none"> a. any condition which is or may be in breach; b. a short description of the incident and/or non-compliance; and c. the location (including co-ordinates), date, and time of the incident and/or non-compliance. In the event the exact information cannot be provided, provide the best information available. 	<p>Not Applicable</p>	<p>Year 2 -This condition was not triggered during the reporting period. Year 1 -This condition was not triggered during the reporting period.</p>

<p>11. The approval holder must provide to the Department the details, in writing, of any incident or non-compliance with the conditions as soon as practicable and no later than 10 business days after becoming aware of the incident or non-compliance, specifying:</p> <p>a. any corrective action or investigation which the approval holder has already taken or intends to take in the immediate future;</p> <p>b. the potential impacts of the incident or non-compliance; and</p> <p>c. the method and timing of any remedial action that will be undertaken by the approval holder.</p>	<p>Not Applicable</p>	<p>Year 2 -This condition was not triggered during the reporting period.</p> <p>Year 1 -This condition was not triggered during the reporting period.</p>
<p>Completion of the action</p> <p>12. Within 30 days after the completion of the action, the approval holder must notify the Department in writing and provide completion data.</p>	<p>Not Applicable</p>	<p>Year 2 -This condition was not triggered during the reporting period.</p> <p>Year 1 -This condition was not triggered during the reporting period.</p> <p>The action is defined as: <i>A new 15 million tonne overburden emplacement area and associated storage dam, relocation of a powerline and construction of an intersection on Marulan South road [EPBC Act referral 2018/8243]</i> However the removal of the vegetation associated with the action has been completed in the year 1 reporting period.</p>

Subject: Re: retirement of Biodiversity Credits (RETIRE44) Approved

Hi Jared and Lloyd,

The retirement of BOS credits for the purpose of complying with a requirement to retire biodiversity credits of a planning approval RETIRE44 has been approved.

The retirements are registered on the BOS Public Register in the [Transactions register](#). Section [6.30 Biodiversity Conservation Regulation 2017](#) provides that retirement of a biodiversity credits is to be conclusively presumed if the retirement is recorded in the public register.

1st April 2022

To whom it may concern,

Peppertree Quarry- EPBC 2018/8243

I wish to notify the department of the commencement as per Part B, Condition 6. The condition states:

"6. The approval holder must notify the Department in writing of the date of commencement of the action within 10 business days after the date of commencement of the action."

I am satisfied we have met our obligations under the relevant conditions and wish to advise we commenced works beginning 21st March 2022.

Should you have any questions please do not hesitate to contact me on 0401 894 082.

Yours Sincerely,

Michael Higgins
Operations Manager – Peppertree Quarry

Cc: EPBC Monitoring <epbcmonitoring@dcceew.gov.au>

Dear Christopher,

Thank you for the submission of the 2022-23 Annual Compliance Report for EPBC 2018/8243.

The department acknowledges receipt of this submission, and it will be reviewed accordingly.

For further information please do not hesitate to contact the EPBC Monitoring Mailbox.

Kind regards,

Hannah Brugman

Administration Officer

Approvals Compliance Section | Compliance and Enforcement Branch | Environmental Permitting and Compliance Division

Department of Climate Change, Energy, the Environment and Water

Ngunnawal Country, John Gorton Building, King Edward Terrace, Parkes ACT 2600 Australia
